

#COVID-19 Community Support

The coronavirus (COVID-19) situation has impacted the whole of society and in response, Catalyst has developed a 'COVID Community Support Team'.

Our team is spearheading a major push to go out into communities to help people including those most vulnerable and the elderly.

You can talk to one of our team, we will be available **7 days a week, 8am - 6pm.**

Please call **01642 733906** or email covidcommunitysupport@catalyststockton.org

Help will range from, food shopping and picking up prescriptions to making sure people who are self-isolating and may be worried or lonely, get the right support they need.

We are working closely in partnership with the Voluntary, Community and Social Enterprise (VCSE) sector and other public sector organisations to coordinate this support.

"Catalyst always put the VCSE first, our communities lie at the very heart of what makes our Borough so strong and we need you to continue helping and supporting each other to stay safe and well through this difficult time." - Guru Naidoo, Chair of Catalyst Board

Are you a resident in need of help and support? If so, get in touch so we can arrange assistance for those who are not able to manage.

Please make sure to share this message.
