

Mrs Fearn's and Mrs Jones' class - Home Learning
Week beginning 15th June 2020

Hi everyone. We hope you are well and keeping safe. Mrs Fearn has been keeping busy decorating her house and relaxing with books and jigsaws. What have you been up to?

	First...	Then...	Challenge!
Reading	Read aloud to an adult or an older brother or sister - every day if you can!	Read " Space telescope " about the amazing real-life scientist Nancy Roman.	Find out more about our solar system by reading " Planets ".
Spelling	This week we will be looking at the suffix -ful. Adding the suffix -ful to the end of a word changes its meaning. So care + ful = careful, meaning full of care.	Add - ful to these words to make new words: care + ful = careful pain + ful = _____ help + ful = _____ use + ful = _____ forget + ful = _____ power + ful = _____	Play games on spelling zone to help you learn these words.
Writing	Watch Nathan Bryon read his inspiring book Look Up! Dapo Adeola is the illustrator of this book and will show you how to draw Luna the cat. There are questions to answer about this story on the next page.	Rocket loves everything about space! Write down all the facts you have learned from your reading this week. You could even make a poster about it like Rocket.	Do you think Rocket and Nancy Roman are alike? Would they be friends?
Maths	This week we will be looking at 2D shapes. Watch this BBC video to remind yourself all about them then complete the quiz.	Now visit Education City to complete the activities set for this week.	Sometimes shapes make patterns – play this game to see if you can complete the repeating patterns.

Please remember to send any feedback or photos of work to parents@tileryprimary.org.uk

Look Up!

Every night before bed, I set up my telescope and look up at the stars. Mum tells me that I never stop looking up and my head is always floating in the clouds. But she can't tell me that I **LOOK UP** more than my big brother, Jamal, **LOOKS DOWN** at his silly phone.

Jamal says I'm called Rocket because I've got fiery breath. But Mum says it's because a famous rocket blasted off into space the day I was born!

All I know is that one day I'm going to be the greatest **astronaut, star-catcher, space-traveller** who has ever lived, like Mae Jemison, the first African-American woman in space.

DID YOU KNOW

Mae Jemison went into orbit around Earth in the space shuttle Endeavour, even though she is scared of heights!

Quick Questions

1. What does Rocket use to look up at the stars?

2. What word describes the rocket that Rocket was named after?

3. Why might Rocket find Jamal annoying?

4. What do you think Rocket will do for a job when she's older?
