Seesaw in EYFS

What is Seasaw?

Seasaw is an app that parents can download onto their phone or other device. It is also accessible via the Seesaw website.

Look out for this logo!

How Seasaw is used in EYFS at Tilery Primary School?

Your child learns best when there is a positive relationship between school staff and parents. Seesaw is a way that school can share pictures, videos and comments about your child's learning. **We would also like parents to share any pictures, videos and comments about what their child has been up to when they are at home using the Seesaw app.**

What might a parent want to share with school on Seesaw?

Pictures, videos and comments showing the child-

- Cooking or baking
- On any special visits e.g. to the beach or on a forest walk
- Celebrating any special events in the family
  e.g. Grandma's Birthday or a religious event
- Art and crafts activities at home
- Counting or math's at home
- Reading special books or writing at home

Example parent post- this child grew a sunflower at home!

How to access and use the Seesaw app?

1. Download the Seesaw Class app on your device. It's free and looks like this.

2. Choose I'm a student

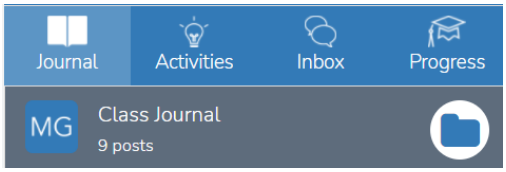
3. Your child will be given an individual QR code to log in. This means you can only view your child's learning and everything is safe and secure.

How to post pictures, videos and comments about your child?

1. Click on the green add sign in the top right.

2. Click onto post student work. 
3. Click onto photo or video (you can then add a comment if you like using the T button).

How to view pictures, videos and comments the teacher has posted?

1. You will get a notification when the teacher posts any of your child's work.


2. You can view all of your child's work by clicking onto their journal.
